“ *What do you learn in school every day?* ”

— Mathematics, Science, English... And aside from these subjects, we may learn some other skills such as teamwork, friendship, following rules, leadership, and so on through school events, club activities and volunteer works. Can you imagine how these skills and knowledge are used in the future? Today, let's think about it together.

#### 【POINT】

- We obtain many skills and knowledge in school every day.  
( 私たちは毎日学校で様々な能力や知識を獲得している。 )
- We need to use those skills in the society after graduating from school.  
( 卒業後に、学校で得た能力を社会で活かす必要がある。 )
- To make the world better in the future, we are trying hard now!  
( 未来を明るくするため、私たちは今学校で懸命に学んでいるのだ。 )
